

CARD DEFENDER

OT01011

Card Defender

Available branded with your logo or security message

Introduction

Electronic pickpocketing is a growing crime in the UK as a result of the increasing use of contactless cards payments. Criminals have been known to use hand-held card readers to 'skim' sensitive information from credit cards, often through pockets or bags. This can lead to instances of credit card fraud and identify theft.

The Card Defender card protector combats this by containing RFID blocking technology, preventing such readers access to sensitive information. Simply keep your card inside the Card Defender to keep your details secure.

- Protects all contactless cards.
- Secures sensitive information
- Combats fraud & identity theft
- Branding options available

SOLON SECURITY

Unit 40, Manor Industrial Estate
Flint, Flintshire
CH6 5UY

Contents:
